

Breakfast and Snack Time

Article 24: Children have the right to good quality health care, clean water, nutritious food and a clean environment.

Eating together and sharing food is an important part of each Thrive Base. Every day, the children will have breakfast time and snack time. They will sit and eat together at the table in the Thrive room. The children will be given roles and responsibilities during these times. For example, giving out the plates or pouring the water.

This special time is a time for talking and listening to each other.
